Worksheet for Week 4 CSC 343 Winter 2021
University of Toronto Mississauga

February 4/5, 2021

ERD to Data Definition Language

Task 1

From the ERD you generated last class for S.H.I.E.L.D. to track Superhereos and Villians, identify all the relations. Ensure you also denote their primary key and keep note of any constraints.

Task 2

From the relations you have identified in Task 1, create the `DDL` file for the relations and populate it with some data!
